## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 39,41,43-59,62-74 (renumbered 1-32, respectively) are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims **39 & 59**, the prior art of record fails to teach rejecting the packet data with said first priority level, if said step (c) (1) determines that said amount of packet data exceeds said first threshold and said step (c) (2) determines that more than one weighted average bandwidth calculated in said step (b) exceeds said first predetermined value, wherein said first priority level has a highest weighted average bandwidth calculated in said step (b).

Regarding claims **41-53 & 62-74**, these claims are all further limiting to claim 39 & 59 respectively. Hence are allowable over prior art.

Regarding claim **54**, prior art of record does not expressly disclose the method further including steps to determine whether more than two or three weighted average bandwidth calculated in said step (b) exceed said predetermined value. The prior art of record also fails to teach determining whether an amount of data exceeds a second or a third threshold.

Regarding claim **55-58**, these claims are all further limiting to claim 54. Hence are allowable over prior art.

### ***Conclusion***
